Hi Rich,

Attached is the Draft Source Control Decision for Oregon Beverage Recycling Cooperative (former Container Recovery) ECS I 4015 site

The site is located at 3900 NW Yeon Ave. in Portland. DEQ issued a no further action for site in 2004. Portland Harbor stormwater site discovery work caused DEQ to reopen the site for the stormwater pathway. DEQ is concluding that the site stormwater control measures have effectively controlled the stormwater-related contaminants, and the property does not appear to be a current or reasonably likely future source of contamination to the river.

We are asking you for a 30-day turn around on your review and look forward to discussing it with you should you have any questions.

Please note that the SCE is available on our ftp site at: <ftp://deqftp2.deq.state.or.us/aliverm\OBRC.SCE.9.23.2014.pdf> should you wish to refer to it for more background details.
